PRODUCT CATALOG // FIRE & PRESS // 2025

WHERE QUALITY FEELS AT HOME. The home of our DEKEMA furnaces.

For over 50 years, DEKEMA has been a benchmark for highest quality, precision and reliability – Made in Germany.

But our furnaces are far more than just technological masterpieces. They are faithful companions that help dental technicians all over the world to practise their art at the highest level. They make perfection possible, express passion and help to give the most valuable thing there is.

the most valuable thing there is: Our responsibility does not end with the purchase: we are there – personally, directly, on site. With our service, we not only bring technology to laboratories, but also trust and safety. Our service technicians come directly to the laboratory, providing expertise, support and customised solutions – exactly when it matters.

Individual support, genuine proximity, active partnership – that's what DEKEMA is all about. Because it takes more than just a furnace.

Dr Stephan Miller

Naoki Aiba, oral design Center Monterey

DEKEMA. Passion.

It's our ambition to further refine our already matchless dental ceramic furnaces. We have decades of experience with every component of our products. Dental ceramic furnaces by DEKEMA are made exclusively of high-quality materials and are superior in their class. As a fully independent German manufacturer, we top the highest quality expectations.

What are your benefits?

The best performance, reproducibility and quality are embedded in incredible ease of use. In short: top-class aesthetics.

**„YOU HAVE TO DELIVER
PERFECT WORK?
DAY AFTER DAY?
YOU CANNOT AFFORD
A DIFFERENT PRODUCT.“**

Experience the world of DEKEMA in your lab every single day. We offer the highest level of service. Fast support matters of course, as is the rapid and straightforward provision of replacement equipment and support for new developments. That's what we all stand for, DEKEMA and our worldwide partners.

Naoki Aliba, *oral design* Center Monterey

DEKEMA. Claim.

The DEKEMA AUSTROMAT™ family is a result of a premium workmanship. The unique concept of the firing chamber, the intuitive user interface and its functionality, which sustains any worldwide comparison.

Perfect results – simple as never before.

Control your AUSTROMAT™ via the high-resolution touch screen, with your computer or your smartphone. We even provide solutions for a one-click cycle start. Don't waste your time with programing, emphasize on your core business.

**„AS SIMPLE AS POSSIBLE,
AS DETAILED AS NECESSARY!“**

Fine tuning necessary? Any time!

Up to five different input screens offer access to every single parameter, even during the program run.

Feels like home.

The user interface is consistent throughout all models. No matter which furnace you use, you immediately feel familiar and training has gone the way of the todo.

Everything is possible!

Do you prefer working with a computer mouse or a keyboard? Just connect them to the USB interfaces and get started.

DEKEMA. Manufacture.

100% Made in Germany.

All DEKEMA furnaces are hand-crafted products of our German manufactory. Every single part is either manufactured inhouse or prioritized from specialized regional suppliers.

DEKEMA. Customize.

You would like to individualize your furnace? Let your equipment reflect your personality. An individual screensaver, your logo, or your corporate color – DEKEMA customizes your AUSTROMAT™.

DEKEMA. Housing.

- » Convection cooling integrated by design without separate fan
- » Corrosion-free and lightweight aluminum housing
- » Surface texture in matt silver or matt black

DEKEMA. Lift system.

- » Vibration-free lift movement
- » Durable, maintenance-free stainless steel mechanical parts
- » Individually selectable drying position

DEKEMA. Firing chamber.

- » Designed decades ago – used for decades – refined over decades
- » Unsurpassed harmonic energy distribution
- » Each of the firing chambers are assembled at DEKEMA, with audited and weighed insulation components

DEKEMA. Fibre insulation and stone insulation.

- » DEKEMA fiber insulation – high-purity insulation, precise and dynamic
- » DEKEMA stone insulation – the traditional type of insulation, innovated by DEKEMA, unique in the market, favored by the world's most famous and best dental technicians

DEKEMA. Heating element.

- » In-house manufactured heating element coil
- » Unsurpassed in durability and longevity

DEKEMA. Thermocouple and control.

- » Platinum/platinum-rhodium thermocouple, purest quality with an accuracy of measurement far below 0,5°C
- » Best temperature behavior
- » DEKEMA silver wire test ensures only one temperature measuring point

DEKEMA. Sustainability.

Regional & energy efficient.

We focus on sustainability – from the choice of our raw materials to the technology of our dental furnaces. Our materials come from the region as far as possible, which minimises transport routes and conserves resources. At the same time, our energy-efficient technology meets the latest standards to ensure environmentally friendly operation. In this way, we combine the highest quality with responsibility for the future.

For us, sustainability is more than just a promise – it is part of our philosophy. Together, we are shaping an environmentally conscious future without compromising on quality and continuous development.

DEKEMA. Equipment.

DEKEMA trixpress™

trixpress™ – patented and worldwide unique!
The DEKEMA trixpress™ system includes ring sizes of 100 g and 200 g, adapted to the functions of the AUSTROMAT™ 654 and AUSTROMAT™ 654/™. The two sizes cover all pressing and overpressing techniques. Since the disposable placeholders can be arranged as desired, you can simultaneously process up to 20 g of porcelain and/or three different colors simultaneously during one single pressing. The use of the press ingots can be optimized by distributing the porcelain to several plungers.

DEKEMA AutoDry™

DEKEMA AutoDry™ simulates the object temperature and automatically regulates the distance between the firing object and the chamber. The vibration-free lift enables precise and accelerated drying, heating and cooling phases.

DEKEMA MPTA (Multiple Press Time Automatic)

The advancement development of the upwards-pressing propulsion of the legendary AUSTROMAT™ 3001 press-i-dent: this unique upwards-pressing propulsion, installed in the AUSTROMAT™ 654 and AUSTROMAT™ 654/™, provides perfect pressing results. Epic in precision and accuracy.

Soft Touch Lift function

The Soft Touch Lift function enables to precisely and flexible control the lift of your DEKEMA furnace via the front panel – easy and intuitive.

DEKEMA. Highlights.

DEKEMA IoT (Internet of Things)

Just register your DEKEMA furnace at DEKEMA online and profit from a secure backup of the process data and fast service to minimize downtime.

DEKEMA online service

Our DEKEMA online service is available twenty-four-seven. Register at www.dekema.com, save time and get the best service and support.

DEKEMA Connect

Connect your AUSTROMAT™ to the internet. Benefit from almost unlimited possibilities in operation, programming, control, and maintenance of your AUSTROMAT™.

DEKEMA Check

Internal test routines during the program run monitor all relevant parameters. An automatic diagnosis routine has been integrated for all substantial components to determine the service intervals.

DEKEMA online

More than 100.000 firing, pressing and sintering programs of all manufacturers of dental ceramics in our database – and more are added every day.

Load and play – it doesn't get easier than this!

myDEKEMA

The installed VNC server provides remote access to your device, only through your active clearance, in case of questions. This reduces downtime and eliminates shipping your furnace or arranging service dates on-site.

OPC and OPC UA

OPC – proven technology for communication between automation systems.
 OPC UA – an advanced, platform-independent and secure architecture that enables seamless connection of different devices and supports real-time data transmission.

Welcome to the Circle.

DEKEMA Circle

The DEKEMA Circle connects all of your DEKEMA devices. You profit from online software updates and backups, internet database connection, remote control, and the automatic transfer of project-specific firing, pressing and sintering programs.

„JUMP INTO THE DEKEMA CIRCLE – YOU WON'T STEP BACK.“

Enjoy control

You're in a meeting and want to supervise your AUSTROMAT™? With the DEKEMA Circle and your smartphone, you easily remote control your AUSTROMAT™ devices. Is the firing already finished? Did you adjust the temperature? Find all information you require, whenever you want, wherever you are.

Houston, we have a problem!

You have questions – we have the answer. With an internet connection, our support can access the furnace remotely – if you allow us to! By analyzing your QM data, we troubleshoot from any place, anywhere, anytime. We want you to be operational.

**„IT ALL BEGAN
WITH A
CERAMIC FURNACE.
TODAY
YOU RECEIVE THE
MAGNUM OPUS.“**

DMAT™

220 G2

The DEKEMA for starters redefined: faster, more powerful, more intuitive

AUSTROMAT™ 220 G2

- Stand-alone firing furnace with optional vacuum pump
- 13 kg stable
- Firing, glazing, crystallization and infiltration with and without vacuum
- APEX software with delayed vacuum switch-on point and QR codes for quick access to DEKEMA online
- 25 % faster driving speed of the lift allows instantaneous dry and closing phases
- Lift system made of high-strength aircraft aluminum for more reliable and maintenance-free lift rides
- Self-lubricating bronze guide and reinforced spring of the telescopic piston for smoother closing processes
- Optimized ventilation unit with fixed pump connection hose and integrated pressure gauge
- Plug and play: Place – Power – Perform

Vacuum pump (115 V, 50 – 60 Hz) Art. No. 105203
Vacuum pump (230 V, 50 – 60 Hz) Art. No. 105201

Vacuum pump, version DEKEMA 838.3 R, durable and low-maintenance, with coated, flow-optimized aluminum pump heads and special vacuum guide for highest vacuum performance.

Ventilation unit, external (100 V, 50 – 60 Hz) Art. No. 106499-02
Ventilation unit, external (115 V, 50 – 60 Hz) Art. No. 106499-02
Ventilation unit, external (230 V, 50 – 60 Hz) Art. No. 106500-02

Ventilation unit for connecting a vacuum pump to vacuum furnaces without integrated solenoid valve.

Firing table, fibre Art. No. 101733
Firing table for use in furnaces with fiber insulation.

CALIBRITE™ fire set Art. No. 101817-01

Silver wire calibration set for exact temperature adjustment of firing furnaces, as well as of press furnaces with single-plunger press system.

CALIBRITE™ fire wire Art. No. 101821-01

15 pre-formed silver wires for precise temperature calibration of firing furnaces, as well as of press furnaces with single-plunger press system.

Firing tray, set Art. No. 106490

Firing tray, set of temperature-optimized honey-comb tray and 10 ceramic pins for exact positioning of firing objects.

Tweezers, DEKEMA logo Art. No. 105236

Furnace tweezers for safe handling of firing objects.

DEKEMA. Press.

Pressing shapes high-precision dentures. A blank is heated and pressed into the desired shape – for aesthetic and long-lasting results.

Unrivalled worldwide

The DEKEMA trixpress™ system combines an innovative upward pressing process with 3-plunger technology. This enables the processing of up to three colours in one step.

DEKEMA. Accessories. AUSTROMAT™ 654i™ G2

Press table, multiple plunger press system Art. No. 101726

Press table for use in press furnaces with multiple plunger press system.

Firing table, multiple-plunger press furnaces Art. No. 101734

Firing table for use in press furnaces with multiple-plunger press system.

Ceramic supports (6 pieces) Art. No. 105488

Ceramic supports (6 pieces) for decoupled placement of press rings inside the preheating furnace.

CALIBRITE™ press set Art. No. 101818-01

Silver wire calibration set for exact temperature adjustment of press furnaces with multiple plunger press system.

CALIBRITE™ press wire Art. No. 101822-01

15 pre-formed silver wires for precise temperature calibration of press furnaces with multiple plunger press system.

Firing tray, set Art. No. 106490

Firing tray, set of temperature-optimized honey-comb tray and 10 ceramic pins for exact positioning of firing objects.

DEKEMA. Accessories. AUSTROMAT™ 654i™ G2

Tweezers, DEKEMA logo

Art. No. 105236

Furnace tweezers for safe handling of firing objects.

trixpress™ ring system, set

Art. No. 101807-01

Investment ring system trixpress™, set, consisting of base plate POM, segments for 100g and 200g investment rings, lid, 2 aluminum holding rings, Placeholder (50 pieces in blue color, Ø 13 mm) and 5 disposable press plungers.

trixpress™ press ring, 380 g segments

Art. No. 101808

Press ring for pressing over extensive restorations.

Placeholder, blue color, Ø 13 mm (50 pieces) Art. No. 101915

Placeholder (50 pieces in blue color), Ø 13 mm, combustible without residue, for trixpress™ investment ring system, for srewing press objects.

trixpress™ disposable plungers, Ø 13 mm (50 pieces)

Art. No. 105891

Disposable press plunger (50 pieces), Ø 13 mm, for single and multiple plunger pressings of all common investment materials and pressable ceramics.

BACK TO BASIC.

The Series 6.

FIRE

AUSTROMAT™ 624 **Firing in perfection.**

The AUSTROMAT 624 – the first choice for the perfect firing of ceramics. Easy and convenient to operate, it reliably guarantees outstanding results. Thanks to precise temperature control and powerful vacuum performance, you can achieve consistently high quality with impressive transparency and exact colouring. Its intelligent control system optimises the entire firing process and ensures maximum reproducibility.

FIRE + PRESS

AUSTROMAT™ 654 **The perfect all-rounder.**

The AUSTROMAT 654 is the perfect combination furnace for pressing and firing dental ceramics. With intuitive operation, precise temperature control and powerful vacuum performance, it always delivers reliable results. In addition, the AUSTROMAT 654 impresses with the highest quality and ensures exact colouring of your ceramics – for results of the highest standard. Its robust design and durable technology make it a reliable partner.

DEKEMA. Vacuum.

DEKEMA. Vacuum pump.

- » Self-cooling aluminum heads
- » Low contamination Trenn Coat™ coating
- » Straight air flow
- » Vacuum performance down to below 20 mbar
- » High running performance with low maintenance requirements
- » Self-cleaning feature
- » Low-noise operation due to highly effective silencer

trix

TM

**THE ART
OF PRESSING.**

trix™4all. The software that perfects your pressing process.

trix™hub

trix™hub is the central application for managing all trix™ modules. Once installed, you have access to all activated functions from here. A licensing system makes the system extremely flexible and individually expandable.

trix™4all

With trix™4all, you can create high-precision nestings for crowns and bridges on up to three press plungers simultaneously. The generated STL file offers you two key advantages:

- ▮ Complete printing freedom – Use your own 3D printer and your preferred cast resin.
- ▮ Integrated base plate – the base plate is printed along with the model and fits perfectly into the trixpress™ ring system.
- ▮ The ideal solution for laboratories that want to work openly, efficiently, and in a material-saving manner – without any system constraints.

trix™CAD // trix™print²

With trix™CAD, you can slice your designs directly and transfer them to trix™print² ready for printing. The software is designed for maximum compatibility, efficiency, and accuracy—for reproducible results without detours.

**READY TO EXPERIENCE
THE ART OF DIGITAL PRESSING?**

Scan the QR code and download
your free trix™ trial license.
www.dekema.com/trix

trix™ print²

Perfectly matched to the trix™ system.

trix™ print²

- » Revolutionary performance for dental manufacturing
- » Fast, reliable, and reproducible production results
- » High-precision DLP projector for razor-sharp details and consistent print quality
- » Durable components for maximum operational safety
- » 10.1" touch control panel with ingeniously simple operating concept
- » Automatic transfer of project-specific print jobs
- » 3D printing on up to two trixpress™ base plates or on a 144 x 80 mm base area with a height of up to 160 mm
- » Aluminum housing in elegant black

Technical data

- » Dimension 15,39" x 21,61" x 14,37" (W x H x D)
- » Size of installation space 5,67" x 3,15" x 6,30" (X x Y x Z)
- » Weight 40 lbs
- » Power supply 100 – 240 V / 50 – 60 Hz
- » Z precision > 1 µm
- » Light source 385 nm
- » Printing speed 70 mm/h (depending on material)
- » Layer thickness > 10 µm (depending on material)

DEKEMA. Print.

Printing with the trix™ system is an important preparatory step for the DEKEMA trixpress™ pressing process. First, a digital press design is created in trix™CAD and then produced in the trix™print² 3D printer or exported as a STL with the trix™4all. Finally, this design can be processed in the AUSTROMAT™ 654j™.

The advantage: Printing is an ideal complement to the milling process and saves resources.

DEKEMA. Accessories.

trix™print²

print & place, set for trix™print²

Art. No. 106631

Set, consisting of large tank and print fundamental.

print & smile, set for trix™print²

Art. No. 106633

Set, consisting of small tank, trixpress™ holder for printing on one base plate, base plate trixpress™ anodized.

print & press, set for trix™print²

Art. No. 106634

Set, consisting of small tank, trixpress™ holder for printing on one base plate, trixpress™ holder for printing on two base plates, trix™CAST², trixpress™ ring system.

trix™CAST²

Art. No. 106690

high-quality acrylate-based light-curing resin for the additive manufacturing of objects for the press and the model casting techniques.
